THE ENGLISH CATALOGUE OF BOOKS WITH INDICES

Special Offer to the Trade, Librarians and Others

THE PUBLISHERS' CIRCULAR and the CATALOGUES connected with it having become the property of a NEW COMPANY (embracing in its Directorate the names of some of its original founders nearly seventy years ago), the Directors have decided to make an exceptional offer of the present small stock of Catalogues. Accordingly they have fixed the price so low that no one interested in the literature of the Victorian Era of the past century, no Bookseller, Publisher, Author or Librarian need be without a set so far as they can now be supplied.

The First Volume of the English Catalogue, from 1835 to 1862, and its accompanying Index Volume are out of print and scarce.

The Second Volume, 1863 to 1871 inclusive, is also out of print and scarce.

The following are the Volumes which are now available :—

Volume II. THE INDEX OF SUBJECTS only. Contains the years 1856 to 1875 inclusive.

N.B.—It contains 1856 to 1873 in one alphabet and 1874 and 1875 in separate alphabets (including 20 years), thus forming a reasonable substitute for part of the out of print Vol. I. and the whole of Vol. II. It supplies *Titles* under *Subject*, and *price* and *year*.

*Volume VI.	Contains 1898 to 1900, three years	...	...	...	...	...	1	10	0
							<u>£15 0 0</u>		

(* These Volumes have no separate Index, as they contain a perfect Index with the alphabet.)

The above seven Volumes, originally published at FIFTEEN POUNDS, can now be had newly bound in half morocco in Five Volumes for SIX POUNDS, or in sheets for FIVE POUNDS.

If separate Volumes are required, they can be supplied at the following prices :—

Vol. II., sells 42s.,	now offered for 15s.	Vol. V., sells 84s.,	now offered for 40s.
Vol. III. and Index, 60s.,	" " 30s.	Vol. VI., " 30s.,	" " 15s.
Vol. IV. " " 84s.,	" " 40s.		

It should always be remembered that these Volumes will never become out of date or useless. The total number of them is always diminishing, and when they are all out of print there will no longer be obtainable any complete consecutive Catalogue at all of the English Books published during the Victorian Era (1837 to 1900). The Official British Museum Catalogues covering the same period are altogether too costly and cumbersome for ordinary persons or purses.

In one handsome Royal 8vo Volume of about 1300 pages. Half-bound in Best Seal-skin.

Price £3 13s. 6d. net.

A NOTE ON "THE ENGLISH CATALOGUE" 23615 PAST AND PRESENT

THE ENGLISH CATALOGUE OF BOOKS has for many years been one of the institutions of the bibliographical world, and it may not be without interest to repeat Mr. E. Marston's sketch of its development.

Among the earliest catalogues known were those compiled by Robert Clavell, which he called "Term Catalogues," because he seems to have issued them in separate volumes at Michaelmas Term, Hilary Term, Easter Term, and Trinity Term of each year from the year 1666 to 1709. John Dunton says of him: "Mr. Robert Clavell is a great dealer, and has deservedly gained himself the reputation of a just man. Dr. Barlow, Bishop of Lincoln, used to call him the 'honest bookseller.' He has been Master of the Company of Stationers (1698 and 1699)."

Two other catalogues which are also among the earliest known are "Maunsell's Catalogue of English Books, 1595," and William Jaggard's "Catalogue of such English Bookes, as lately have bene and now are in printing for publication," 1618-19.

Clavell's term catalogues ceased publication in 1709. In 1773 there was published "The London Catalogue of Books in all Languages, Arts, and Sciences that have been printed in Great Britain since the year 1700" (no publisher). There were other catalogues published during the eighteenth century, but this "London Catalogue" claims to contain "upwards of 1,500 books that have never been in any other catalogue."

Then came "A General Catalogue of Books in all Languages, Arts, and Sciences printed in Great Britain and published in London from the year 1700 to 1786. Classed under the several Branches of Literature and Alphabetically Disposed under each Head with their Sizes and Prices. London: Printed for W. Bent, Paternoster Row, 1786."

The next volume again is called "The London Catalogue of Books, Selected from the General Catalogue published in 1786, and including Additions and Alterations to September, 1791."

The next volume is brought down to 1811, and was published that year by W. Bent. The next volumes bear the dates 1811, 1814, 1818, 1822, and 1827. Then follows a volume compiled and published by Robert Bent, probably son of W. Bent, in 1839. The next by Thomas Hodgson in 1846. The last

volume of the "London Catalogue" series was published in 1855. It was subsequently incorporated with "The English Catalogue" in 1864.

The following, then, may be termed the genealogy of "The English Catalogue":

Maunsell's Catalogue of English Books	1595
Jaggard's Catalogue of English Bookes	1618 to 1619
Clavell's Term Catalogues (Great Fire year)	1666 to 1709
London Catalogue (W. Bent)	1700 to 1773
General Catalogue Do.	1700 to 1786
London Catalogue Do.	1786 to 1791
Do. Do. Do.	1791 to 1811
Do. Do. Do.	1811 to 1814
Do. Do. Do.	1814 to 1818
Do. Do. Do.	1818 to 1822
Do. Do. Do.	1822 to 1827
Do. Do. (R. Bent)	1827 to 1839
This volume contains as a supplement (T. Hodgson)	1839 to 1844
Do. Do. Do.	1814 to 1846
Do. Do. Do.	1831 to 1855

THE ENGLISH CATALOGUE.

Vol. 1 (incorporated with the above, compiled by Sampson Low)	1835 to 1862
Vol. 2	1863 to 1871
Vol. 3	1872 to 1880
Vol. 4	1881 to 1889
Vol. 5 (classified in one alphabet, therefore requiring no separate index volume)	1890 to 1896
Vol. 6	1897 to 1900
Vol. 7	1901 to 1905
And Four Index Volumes—viz.:	
Vol. 1	1837 to 1857
Vol. 2	1856 to 1875
Vol. 3	1874 to 1880
Vol. 4	1881 to 1889
And the annual volumes for	1906 & 1907

It will be seen from this brief outline, which does not claim to be complete, that "The English Catalogue" can trace its ancestry back for more than three hundred years.

THE PRESENT YEAR.

This year has been by far the busiest in the annals of English publishing. No fewer than 9,914 books are recorded in this volume; or 1,311 more than in "The English Catalogue" for 1906. The increase has been spread over the entire year, and consequently no especial activity has been noticed in either of the main publishing seasons. The classified increases are: Religion and Philosophy, 213; Law, 145; Arts and Sciences, 610; Voyages and Travels, 163; History and Biography, 232; Poetry and Drama, 69; Medicine, 63; Essays, &c., 29;

Miscellaneous, 116. Social Economy, &c., and Year Books, &c., remain stationary ; while decreases are recorded in Education and in Fiction. Reprints have been more plentiful this year, owing to in-

creased activity in the publication of cheap series. Other detailed information regarding the publications of the year will be found in the Analytical Table.

PREFATORY NOTE

THIS seventy-first yearly issue of the English Catalogue of Books comprises the titles (in duplicate—namely, under author, and subject or title) of works published during 1907, and also of some received too late for inclusion in the seventieth issue.

The main entry of each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with the most important word (which usually indicates the *subject* dealt with by each book), or with the first word; the word or name under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the fullest information about a book may be found. Main entries and index are in one alphabet.

The publications of Learned Societies are recorded in an Appendix.

The names and addresses of the publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal publishers in the United States and in Canada. The telegraph and cable addresses and telephone numbers have been added when known.

A brief historical note on the development of the English Catalogue, and an analysis of the books of this year, follow the preface.

Hearty thanks are due to many publishers, secretaries, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars of author, price, publisher, and month of publication of any work which may have been omitted. Information as to each book should be given on a *separate* slip of paper or postcard. It should be addressed to

DIRECTORY OF PUBLISHERS

Publishers have been invited to send us their Telegraphic Addresses and Telephone Numbers.

Those sent will be found below between square brackets [], and separated from each other by a semicolon (;)

This list of Publishers, with their Addresses, has been principally compiled with a view to supplying information regarding the books in the 1907 English Catalogue. This will explain the inclusion of many firms in the list who can scarcely, in the strict acceptance of the term, be called Publishers, since the publication of books forms only an occasional portion of their business.
